

Agreement No. __ - ____

Subaward Agreement Between the County of Yolo and the Capay Valley Fire Protection District Regarding Funding for the District's Upgrades to Water Transfer Infrastructure Project

This Agreement (the "Agreement") is dated for reference purposes only as of January ____, 2023 and is entered into by and between the County of Yolo, a political subdivision of the State of California (the "County"), and Capay Valley Fire Protection District ("District"), a dependent special district organized pursuant to the First Protection District Law. The County and the District are referenced in this Agreement as the "Parties" and individually as a "Party."

RECITALS

A. The County and its Office of Emergency Services secured a commitment from the California Department of Water Resources ("DWR") from the Small Community Drought Relief Program to provide \$885,669 in funding for financing the Yolo County Water Hauling and Water System Improvement Project through a funding agreement signed between the County and DWR in _____, 2023 (Grant Agreement No. _____, hereafter "Funding Agreement").

B. The County's Board of Supervisors approved Resolution 21-149 on November 23, 2021, authorizing its Office of Emergency Services to take such actions as necessary related to the Funding Agreement. The Funding Agreement is attached hereto as **Exhibit A** and incorporated herein by reference.

C. The Yolo County Water Hauling and Water System Improvement Project involves several different projects to address dry well concerns in the County, as specified in Exhibit A (Work Plan) of the Funding Agreement, including "Task 6" for upgrades to the District's water transfer infrastructure. Task 6 includes all work that needs to be done to complete upgrades to the District's water transfer infrastructure, as more particularly described in the District's funding application, attached hereto as **Exhibit B** and incorporated herein by reference (hereafter referred to as "the Project").

D. The Funding Award authorizes \$20,000 in grant funding for the Project (Task 6). The County intends to provide \$20,000 of the DWR funding commitment to the District promptly after receiving such funds in exchange for the commitments provided through this Agreement. The Funding Agreement requires the County to impose certain requirements on the District as a subrecipient of the grant award addressed in this Agreement.

E. The Parties recognize that the total cost of the Project is projected to cost a total of \$39,377, requiring additional cost-share and in-kind contributions of approximately \$19,377 in addition to the \$20,000 DWR grant award. The District acknowledges that it is responsible for all of the Project costs not covered by the DWR grant, absent additional funding award(s) from the County, which the County is not obligated by this Agreement to provide. Such additional costs include those related to soliciting bids, executing the Project contracts, securing permits,

inspection and management of the Project's construction, and grant management that is related to construction of the Project.

NOW, THEREFORE, in consideration of the foregoing Recitals and in consideration of other good and valuable consideration, the receipt and adequacy of which is hereby acknowledged, the Parties agree as follows:

AGREEMENT

I. Definitions.

- A. "Costs" means "hard" and "soft" costs related to the design and construction of the Project, including, without limitation, costs incurred by the District or its consultants, contractors, and subcontractors for surveying, engineering, architecture, bonds, permit and inspection fees, insurance premiums, legal and accounting services, contractor's general conditions, labor, equipment and materials, and a management fee equal to five percent of all costs associated with the construction and installation of the Project.
- B. "Effective Date" means the date this Agreement is signed on behalf of the last of the Parties to do so.
- C. "Project Schedule" means completion of the Project no later than June 30, 2024 in accordance with the schedule the District provided in Exhibit B hereto.

II. **Recitals.** The foregoing Recitals set forth above are incorporated into the body of this Agreement as if set forth in full in this Section.

III. **Schedule.** Time is of the essence of this Agreement. Subject to its receipt of full funding for all Costs necessary to complete construction of Task 6, the District agrees to pursue completion of the Project expeditiously and to achieve the Project Schedule. The District shall inform the County within five business days of any event or information indicating the Project Schedule cannot be achieved and submit a revised Project Schedule to County. Consistent with its limited funding role, County approval of changes to the Project Schedule is not required unless the Project construction start date is delayed by more than 60 days. If County approval is required, it may not be unreasonably withheld.

IV. **Term; Termination.** The term of this Agreement shall commence on the Effective Date and shall terminate on June 30, 2024, commensurate with the deadline to expend grant funds pursuant to the Funding Agreement, unless earlier terminated or extended written agreement of the Parties as provided herein or in the Funding Agreement.

- A. Termination for Cause. Subject to the right to cure under Paragraph 11 of the Funding Agreement, the County may terminate this Agreement and be relieved of any payments should the District fail to perform the requirements of this Agreement and the Funding Agreement at the time and in the manner provided in

these agreements and attachments thereto, including but not limited to reasons of default under Paragraph 11 of the Funding Agreement.

- B. Termination without Cause. The County may terminate this Agreement without cause on 30 days' advance written notice if DWR terminates the Funding Agreement without cause as provided in Paragraph D.41 of the Funding Agreement. The District shall be reimbursed for all reasonable expenses incurred up to the date of termination.

V. **The District's Obligations.**

Subject to prior receipt of sufficient funding for Project construction:

A. Construction.

1. The District will construct or cause to be constructed the Project (Task 6), including engineering, design and permitting necessary to support completion of the upgrades to water transfer infrastructure described in the Funding Agreement (Exhibit A hereto) and the District's funding application (Exhibit B hereto).
2. Competitive Bidding. In consultation and coordination with the County to the extent necessary, the District will complete a competitive bidding or other solicitation process required for public projects under California law and consistent with the County's Procurement Procedures for the construction of Task 6.
 1. Performance and Payment Bonds. Where contractors are used, the Grantee shall not authorize construction to begin until each contractor has furnished performance and payment bonds in favor of the District in the following amounts: faithful performance (100%) of contract value, and labor and materials (100%) of contract value. This requirement shall not apply to any contract for less than \$25,000.00. Any bond issued pursuant to this paragraph must be issued by a California-admitted surety. (Pub. Contract Code, § 7103; Code Civ. Proc., § 995.311.)
 2. Prevailing Wage Laws. The District represents that it is aware of the requirements of California Labor Code Sections 1720 et seq. and 1770 et seq., which require the payment of prevailing wage rates and the performance of other requirements on certain "public works" and "maintenance" projects ("Prevailing Wage Laws"). The District agrees that Task 6 is a "public works" project subject to the Prevailing Wage Laws. Accordingly, the District, its contractors and subcontractors that perform work described in this Agreement will comply with the Prevailing Wage Laws and other applicable provisions of the California Labor Code, including but not limited to employment of apprentices (Labor Code Section 1777.5), certified payroll records (Labor Code Sections 1771.4

and 1776), hours of labor (Labor Code Sections 1813 and 1815) and debarment of contractors and subcontractors (Labor Code Section 1777.1).

3. The District will contract and make all other arrangements necessary for the timely construction of Task 6 pursuant to **Exhibits A and B**. Thereafter, the District shall manage the construction process in a timely manner according to the schedule provided herein or otherwise approved by the Parties.
 4. The District shall regularly communicate the progress of construction to the County and allow respond within a reasonable timeframe to any questions raised. At a minimum, this shall include quarterly progress reports submitted to the County within 30 days of the end of each quarter following the commencement of construction, as well as a final report within 60 days after the completion of construction.
- B. The District, at its sole cost and expense, shall obtain and maintain throughout the entire term of this Agreement the insurance set forth in **Exhibit C** attached hereto.
- The District shall not commence construction or other field work associated with the Project until it has submitted all the insurance required and such insurance has been approved by the County. All insurance shall be sent to the County's Procurement Division at procurement@yolocounty.org for review and approval.
- C. The District agrees that all funds provided by County pursuant to this Agreement will be held by the District and applied solely toward Costs for the Project. Any other use of such funds is prohibited, and if the Project cannot be built as contemplated by this Agreement, the District shall return all remaining, unused funding provided pursuant to this Agreement to County.
- D. The District shall keep, and provide to County or its agents upon request, accurate financial records (including invoices) necessary to enable County to review the District expenditure of funds provided pursuant to this Agreement. These records shall demonstrate the funding has been used for Project Costs relating to the Project. The District shall maintain all such records for at least three years after the full completion of the work performed with funding provided pursuant to this Agreement.
- E. Per California Government Code section 8546.7, expenditures pursuant to this Agreement are subject to the examination and audit of the California State Auditor. The District will provide notice of the completion of any required third party (e.g., state or federal) audits and provide access to such audits upon request.
- F. **Acknowledgment of Credit and Signage.** The District shall include appropriate acknowledgement of credit to the State of California for its support when promoting the Project or using any data and/or information developed under this Funding Agreement. Signage shall be posted in a prominent location at the Project site(s) or at the District's headquarters and shall include the Department of

Water Resources color logo and the following disclosure statement: “Funding for this project has been provided in full or in part from the State Department of Water Resources.”

- G. To the extent not expressly required in this Agreement, the District further acknowledges and agrees to comply with the requirements of the Funding Agreement, including the requirements set forth in Exhibit D (Standard Conditions) of the Funding Agreement regarding the accounting and deposit of grant funds, compliance with the Americans with Disabilities Act, budget contingency, the California Environmental Quality Act (CEQA), the Child Support Compliance Act, conflict of interest prohibitions, and final inspection and certification of the Project by a registered civil engineer.

VI. **County Obligations; Reimbursement.** County agrees to provide the \$20,000 in DWR funding for the Project to the District on a reimbursement basis.

- A. The District shall submit invoices not more often than monthly and not less frequently than quarterly for allowable costs incurred for the Project. Upon the receipt of proper invoices, the County agrees to process payments in accordance with this Agreement and the Funding Award. All invoices shall be submitted using detailed invoices that include current and cumulative costs (including cost sharing).
- B. All reimbursement payments shall be considered provisional and subject to adjustment within the total estimated cost in the event such adjustment is necessary as a result of an adverse audit finding against the District. The District also agrees that it must immediately return to the County any funds expended by the District under this Agreement that are later determined by DWR, the County, or representatives thereof not to have been allowable under applicable State or local federal laws and regulations.
- C. The County may withhold ten percent (10%) of the funds requested by the District (\$2,000.00) for reimbursement of eligible Project costs until the Project is completed and Final Report is approved pursuant to Paragraph D.34 of the Funding Agreement. Any retained amounts due to the District will be promptly disbursed to the District, without interest, upon completion of the Project.

In the event of any claim or litigation within the scope of this provision, the District shall retain Counsel reasonably acceptable to the County Counsel to defend the County. This provision shall survive the termination of this Agreement.

VIII. **Nondiscrimination.** During the performance of this Agreement, the District and its contractors or subcontractors shall not unlawfully discriminate, harass, or allow harassment against any employee or applicant for employment because of sex (gender), sexual orientation, race, color, ancestry, religion, creed, national origin (including language use restriction), pregnancy, physical disability (including HIV and AIDS), mental disability, medical condition (cancer/genetic characteristics), age (over 40), marital/domestic partner status, gender identity, and denial of medical and family care leave or pregnancy disability leave. The District and its contractors or subcontractors shall ensure that the evaluation and treatment of their employees and applicants for employment are free from such discrimination and harassment. The District and its contractors or subcontractors shall comply with the provisions of the California Fair Employment and Housing Act (Gov. Code, § 12990.) and the applicable regulations promulgated thereunder (Cal. Code Regs., tit. 2, § 11000 et seq.). The applicable regulations of the Fair Employment and Housing Commission are incorporated into this Agreement by reference. The District and its contractors or subcontractors shall give written notice of their obligations under this clause to labor organizations with which they have a collective bargaining or other agreement.

IX. **Drug-Free Workplace Certification.** By signing this Agreement, the District, its contractors or subcontractors hereby certify, under penalty of perjury under the laws of State of California, compliance with the requirements of the Drug-Free Workplace Act of 1990 (Gov. Code, § 8350 et seq.) and have or will provide a drug-free workplace by taking the following actions:

Any Party may serve a demand for mediation on another Party or Parties, which such demand shall be in writing. The Party which sends, and the Parties named in, the notice constitute the Dispute Parties, and each shall bear an equal share of mediator fees and any related costs. If any Dispute Party fails to participate in the mediation on the terms set forth in this section, it forfeits any right it may have to seek attorney's fees should it prevail in litigation of the dispute. Nothing contained herein shall prevent any party from (i) seeking and obtaining equitable relief, including, but not limited to, prohibitory or mandatory injunctions or specific performance, nor (ii) filing legal action hereunder.
- XV. **Remedies; Attorney Fees.** Each right, power and remedy provided for herein or now or hereafter existing at law, in equity, by statute, or otherwise shall be cumulative and shall be in addition to every other right, power, or remedy provided for herein or now or

hereafter existing at law, in equity, by statute, or otherwise. If legal action shall be necessary to enforce any term, covenant or condition contained in this Agreement, the party prevailing in such action, whether or not reduced to judgment, shall be entitled to its reasonable court costs, including any accountants' and attorneys' fees expended in the action. Venue for any litigation shall be in Yolo County, California and the Parties hereby consent to jurisdiction in Yolo County for purposes of resolving any dispute or enforcing any obligation arising under this Agreement.

- XVI. **Assignment; No Third-Party Beneficiaries.** No Party may assign its interest in this Agreement or the rights under it to any third party, voluntarily or otherwise, without the prior written consent of the other two Parties. The Parties do not intend to benefit any third party by this Agreement and only the Parties may enforce it.
- XVII. **Licensure; Permits and Approvals.** The District certifies that it will hold all applicable licenses and/or certifications required for performance of its obligations under this Agreement. The District will obtain all permits and regulatory approvals necessary for the Project.
- XVIII. **Waiver.** The waiver by any of the Parties of any breach of any term, covenant or condition herein contained shall not be deemed to be a waiver of any other term, covenant or condition or of any subsequent breach of the same or any other term, covenant or condition herein contained. No term, covenant or condition of this Agreement shall be deemed to have been waived by the Parties unless in writing signed by one authorized to bind the Party to be charged with the waiver.
- XIX. **Severability.** If any term or provision of this Agreement (including all Exhibits hereto) or the application thereof to any person or circumstance shall, to any extent, be invalid or unenforceable, then such term or provision shall be amended to, and solely to the extent necessary to, cure such invalidity or unenforceability, and in its amended form shall be enforceable. In such event, the remainder of this Agreement, or the application of such term or provision to persons or circumstances other than those as to which it is held invalid or unenforceable, shall not be affected thereby, and each term and provision of this Agreement shall be valid and be enforced to the fullest extent permitted by law.
- XX. **Amendments; Counterparts.** This Agreement may be amended only by a writing executed on behalf of the Parties to be bound. This Agreement may be executed in counterparts, including electronic counterparts, each of which when taken together shall constitute a single agreement.
- XXI. **Entire Agreement; Counterparts.** All documents referenced as exhibits to this Agreement are hereby incorporated by this reference. In the event of any material discrepancy between the provisions of this Agreement and any document incorporated herein by reference, the provisions of this Agreement shall prevail. This instrument

A PART OF THE SMALL COMMUNITY DROUGHT RELIEF PROGRAM

FUNDED BY

**THE BUDGET ACT OF 2021 AS AMENDED
(STATS. 2022, ch. 44, § 25)**

**FUNDING AGREEMENT BETWEEN
THE STATE OF CALIFORNIA (DEPARTMENT OF WATER RESOURCES) AND
COUNTY OF YOLO**

<SAP AGREEMENT NUMBER>

SMALL COMMUNITY DROUGHT RELIEF PROGRAM

THIS FUNDING AGREEMENT is entered into by and between the Department of Water Resources of the State of California, herein referred to as the "State" and the County of Yolo, a public agency in the State of California, duly organized, existing, and acting pursuant to the laws thereof, herein referred to as the "Grantee," which parties do hereby agree as follows:

1. **PURPOSE.** State shall provide funding pursuant to the Budget Act of 2021 (Stats. 2021, ch. 240, § 80) to the Grantee to assist in financing the Yolo County Water Hauling and Water System Improvement Project (Project). By executing this Agreement, the Grantee certifies that the purpose of the Project is in response to a drought scenario, as defined by Water Code section 13198(a) and is intended to: (1) address immediate impacts on human health and safety; (2) address immediate impacts on fish and wildlife resources; or, (3) provide water to persons or communities that lose or are threatened with the loss or contamination of water supplies.
2. **TERM OF FUNDING AGREEMENT.** The term of this Funding Agreement begins on the date this Funding Agreement is initially executed by State, through final payment plus three (3) years unless otherwise terminated or amended as provided in this Agreement. However, all work shall be completed by June 30, 2024, and no funds may be requested after September 30, 2024.
3. **PROJECT COST.** The reasonable cost of the Project is estimated to be \$1,060,219.
4. **FUNDING AMOUNT.** The maximum amount payable by the State under this Agreement shall not exceed \$885,669.
5. **GRANTEE REQUIRED COST SHARE.** Grantee agrees to fund the difference between the actual Project Cost in Paragraph 3 and the amount specified in Paragraph 4, if any.
6. **BASIC CONDITIONS.** State shall have no obligation to disburse money for the Project under this Funding Agreement until Grantee has satisfied the following conditions:
 - A. For the term of this Funding Agreement, Grantee submits timely Quarterly Progress Reports as required by Paragraph 13, "Submission of Reports."
 - B. Grantee submits all deliverables as specified in Paragraph 13 of this Funding Agreement and in Exhibit A.
 - C. Prior to the commencement of construction or implementation activities, Grantee shall submit the following to the State:
 - i. Final plans and specifications certified by a California Registered Civil Engineer as to compliance for the Project as listed in Exhibit A of this Funding Agreement.
 - ii. Work that is subject to the California Environmental Quality Act (CEQA) and or environmental permitting shall not proceed under this Funding Agreement until the following actions are performed:
 - a. Grantee submits to the State all applicable environmental permits as indicated on the Environmental Information Form to the State, and

- b. Documents that satisfy the CEQA process are received by the State, and
- c. Grantee receives written concurrence from the State of the Lead Agency's CEQA document(s) and State notice of verification of environmental permit submittal.

State's concurrence of Lead Agency's CEQA documents is fully discretionary and shall constitute a condition precedent to any work (i.e., construction or implementation activities) for which it is required. Once CEQA documentation has been completed, State will consider the environmental documents and decide whether to continue to fund the Project or to require changes, alterations, or other mitigation. Grantee must also demonstrate that it has complied with all applicable requirements of the National Environmental Policy Act (NEPA) by submitting copies of any environmental documents, including environmental impact statements, Finding of No Significant Impact, mitigation monitoring programs, and environmental permits as may be required prior to beginning construction/implementation.

- 7. DISBURSEMENT OF FUNDS. State will disburse to Grantee the amount approved, subject to the availability of funds through normal State processes. Notwithstanding any other provision of this Funding Agreement, no disbursement shall be required at any time or in any manner which is in violation of, or in conflict with, federal or state laws, rules, or regulations pursuant to any federal statute or regulation. Any and all money disbursed to Grantee under this Funding Agreement shall be deposited in a separate account and shall be used solely to pay Eligible Project Costs.
- 8. ELIGIBLE PROJECT COST. Grantee shall apply State funds received only to Eligible Project Costs in accordance with applicable provisions of the law and Exhibit B. Eligible Project Costs include the reasonable costs of studies, engineering, design, land and easement acquisition, legal fees, preparation of environmental documentation, environmental mitigations, monitoring, and project construction. Reimbursable administrative expenses are the necessary costs incidental but directly related to the Project included in this Agreement. Work performed on the Project after March 4, 2022, shall be eligible for reimbursement.

Costs that are not eligible for reimbursement include, but are not limited to the following items:

- A. Costs incurred prior to March 4, 2022.
- B. Operation and maintenance costs, including post-construction performance and monitoring costs.
- C. Purchase of equipment not an integral part of the Project.
- D. Establishing a reserve fund.
- E. Monitoring and assessment costs for efforts required after Project construction is complete.
- F. Replacement of existing funding sources for ongoing programs.
- G. Payment of federal or state taxes.
- H. Costs incurred as part of any necessary response and cleanup activities required under the Comprehensive Environmental Response, Compensation, and Liability Act; Resource Conservation and Recovery Act; Hazardous Substances Account Act; or other applicable law.
- I. Support of existing agency requirements and mandates (e.g., punitive regulatory agency requirement).
- J. Purchase of land in excess of the minimum required acreage necessary to operate as an integral part of a project, as set forth and detailed by engineering and feasibility studies, or land purchased prior to March 4, 2022.

K. Overhead and indirect costs. "Indirect Costs" means those costs that are incurred for a common or joint purpose benefiting more than one cost objective and are not readily assignable to the funded project (i.e., costs that are not directly related to the funded project). Examples of Indirect Costs include but are not limited to: central service costs; general administration of the Grantee; non-project-specific accounting and personnel services performed within the Grantee's organization; depreciation or use allowances on buildings and equipment; the costs of operating and maintaining non-project-specific facilities; tuition; conference fees; and, generic overhead or markup. This prohibition applies to the Grantee and any subcontract or sub-agreement for work on the Project that will be reimbursed pursuant to this Agreement.

9. METHOD OF PAYMENT. After the disbursement requirements in Paragraph 6 "Basic Conditions" are met, State will disburse the whole or portions of State funding to Grantee, following receipt from Grantee via US mail or Express mail delivery of a "wet signature" invoice, or an electronic invoice certified and transmitted via DocuSign for costs incurred, including Cost Share, and timely Quarterly Progress Reports as required by Paragraph 13, "Submission of Reports." Payment will be made no more frequently than monthly, in arrears, upon receipt of an invoice bearing the Funding Agreement number. State will notify Grantee, in a timely manner, whenever, upon review of an Invoice, State determines that any portion or portions of the costs claimed are not eligible costs or is not supported by documentation or receipts acceptable to State. Grantee may, within thirty (30) calendar days of the date of receipt of such notice, submit additional documentation to State to cure such deficiency(ies). If Grantee fails to submit adequate documentation curing the deficiency(ies), State will adjust the pending invoice by the amount of ineligible or unapproved costs.

Invoices submitted by Grantee shall include the following information:

- A. Costs incurred for work performed in implementing the Project during the period identified in the particular invoice.
- B. Costs incurred for any interests in real property (land or easements) that have been necessarily acquired for the Project during the period identified in the particular invoice for the implementation of the Project.
- C. Invoices shall be submitted on forms provided by State and shall meet the following format requirements:
 - i. Invoices must contain the date of the invoice, the time period covered by the invoice, and the total amount due.
 - ii. Invoices must be itemized based on the categories (i.e., tasks) specified in Exhibit B. The amount claimed for salaries/wages/consultant fees must include a calculation formula (i.e., hours or days worked times the hourly or daily rate = the total amount claimed).
 - iii. One set of sufficient evidence (i.e., receipts, copies of checks, timesheets) must be provided for all costs included in the invoice.
 - iv. Each invoice shall clearly delineate those costs claimed for reimbursement from the State's funding amount, as depicted in Paragraph 4, "Funding Amount" and those costs that represent Grantee's costs, as applicable, in Paragraph 5, "Grantee Required Cost Share."
 - v. Invoices can be submitted by one of the following methods.
 - a. Via either email at alena.misaghi@water.ca.gov.

- b. Mail the invoice with the original "wet signature" to the following address: Alena Misaghi, Department of Water Resources, South Central Region Office, 691 North Laverne Avenue, Suite 104, Fresno, CA 93727.

All invoices submitted shall be accurate and signed under penalty of law. Any and all costs submitted pursuant to this Agreement shall only be for the tasks set forth herein. The Grantee shall not submit any invoice containing costs that are ineligible or have been reimbursed from other funding sources unless required and specifically noted as such (i.e., match costs/cost share). Any eligible costs for which the Grantee is seeking reimbursement shall not be reimbursed from any other source. Double or multiple billing for time, services, or any other eligible cost is illegal and constitutes fraud. Any suspected occurrences of fraud, forgery, embezzlement, theft, or any other misuse of public funds may result in suspension of disbursements of grant funds and/or termination of this Agreement requiring the repayment of all funds disbursed hereunder plus interest. Additionally, the State may request an audit pursuant to Paragraph D.5 and refer the matter to the Attorney General's Office or the appropriate district attorney's office for criminal prosecution or the imposition of civil liability. (Civ. Code, §§ 1572-1573; Pen. Code, §§ 115, 470, 487-489.)

10. WITHHOLDING OF DISBURSEMENTS BY STATE. If State determines that the Project is not being implemented in accordance with the provisions of this Funding Agreement, or that Grantee has failed in any other respect to comply with the provisions of this Funding Agreement, and if Grantee does not remedy any such failure to State's satisfaction, State may withhold from Grantee all or any portion of the State funding and take any other action that it deems necessary to protect its interests. Where a portion of the State funding has been disbursed to the Grantee and State notifies Grantee of its decision not to release funds that have been withheld pursuant to Paragraph 11, the portion that has been disbursed shall thereafter be repaid immediately as directed by State. State may consider Grantee's refusal to repay the requested disbursed amount a contract breach subject to the default provisions in Paragraph 11, "Default Provisions." If State notifies Grantee of its decision to withhold the entire funding amount from Grantee pursuant to this Paragraph, this Funding Agreement shall terminate upon receipt of such notice by Grantee and the State shall no longer be required to provide funds under this Funding Agreement and the Funding Agreement shall no longer be binding on either party.
11. DEFAULT PROVISIONS. Grantee will be in default under this Funding Agreement if any of the following occur:
 - A. Substantial breaches of this Funding Agreement, or any supplement or amendment to it, or any other agreement between Grantee and State evidencing or securing Grantee's obligations.
 - B. Making any false warranty, representation, or statement with respect to this Funding Agreement, the application, or any documents filed to obtain grant funding.
 - C. Failure to operate or maintain the Project in accordance with this Funding Agreement.
 - D. Failure to make any remittance required by this Funding Agreement, including any remittance recommended as the result of an audit conducted pursuant to Paragraph D.5.
 - E. Failure to submit timely progress reports.
 - F. Failure to routinely invoice State.
 - G. Failure to meet any of the requirements set forth in Paragraph 12, "Continuing Eligibility."Should an event of default occur, State shall provide a notice of default to the Grantee and shall give Grantee at least ten (10) calendar days to cure the default from the date the notice is sent via

first-class mail to the Grantee. If the Grantee fails to cure the default within the time prescribed by the State, State may do any of the following:

- A. Declare the funding disbursed be immediately repaid.
- B. Terminate any obligation to make future payments to Grantee.
- C. Terminate the Funding Agreement.
- D. Take any other action that it deems necessary to protect its interests.

Application for Small Community Drought Relief Program pursuant to Budget Act of 2021

Capay Valley Fire Protection District
Of 7447 Highway 16, Guinda, California, 95637

Of the County of Yolo, State of California, does hereby apply to the California Department of Water Resources for a grant in the amount of \$20,000.

For the following project under the Small Community Drought Relief Program:
Station 22 Water Infrastructure Improvement

Brief Proposal Description:

The Capay Valley Fire Protection District (“District”) proposes to upgrade existing water transfer infrastructure at Station 22, located in the town of Guinda, a disadvantaged community of approximately 230 residents, to significantly reduce fill station wait times and improve distribution efficiency. The fill station at Station 22 is a water source used by the community during emergencies such as well failure or power outages, and for rural firefighting purposes. This project would increase transfer capacity from 130 gallons per minute (GPM) to 250 GPM and improve water efficiency by replacing leaky, damaged valves and piping. The project would also include the following infrastructure upgrades: updating the current sub panel in Station 22 to accommodate additional power supply to the North building, upgrading the underground sub-feed from Station 22 to the North building (“tender bay”) to 100 amp, installing conduit from the North building sub panel to the exterior, trenching conduit to the pumping platform, and purchasing and installing a 220v 5 HP transfer pump. Reduced wait times will lead to more efficient distribution of water to the community during power outages (or Public Safety Power Shutoffs), and improved firefighting capabilities within the District.

Attachment 2 – Project Proposal, Tasks, & Budget

1. Title of Project

Fire Station 22 Water Infrastructure Improvement Project

2. Project Management

Project Director and Manager: Name: Jesse Capitanio
Title: Captain
Address: 7447 Highway 16, Guinda, CA 95637
Telephone: 530-796-3300
Email: capayvalley@yahoo.com

Mr. Capitanio is a Captain with Capay Valley Fire Protection District (“District”) since 2019 and holds the position of Secretary with the District. He has assisted with grant management and reporting on USDA funded projects for various farms within the Capay Valley.

Other Cooperators: Elisa Sabatini, Yolo County. Elisa Sabatini is the Natural Resources Manager for Yolo County and has over a decade of experience managing grants and projects. Currently she is the manager of the Knights Landing Flood Risk Reduction Project, funded by the Department of Water Resources. She is the point person for Yolo County’s collaborative efforts with local districts to address drought and other impacts to water supply systems in the unincorporated area.

Institutional Capacity: The District will implement the project with support from Yolo County. Although a small district, the District has institutional knowledge of grant management as it has received grant funding many times in the past. Captain Capitanio has experience tracking expenditures for grant reporting in his professional work as a small business bookkeeper since 2016 and has years of experience providing in-depth financial reporting to the US Department of Agriculture, California Department of Food and Agriculture, and various other agencies for long-term grant programs in the agricultural industry, as well as assisting with Paycheck Protection Program loan reporting. The District will contract with an electrical contractor to complete electrical improvements on the fill station, install the pump, and replace valves. Yolo County is also willing to assist as needed, as Yolo County staff have significant experience managing grants and implementing capital projects.

3. Scope of Work and Project Description

Scope of Work

The District proposes to upgrade existing water transfer infrastructure at Station 22, located in the town of Guinda, a disadvantaged community of approximately 230 residents, to significantly reduce fill station wait times and improve distribution efficiency. The fill station at Station 22 is a water source used by the community during emergencies such as well failure or power outages,

and for rural firefighting purposes. This water source is connected to a “whole-house generator” making this well a vital community resource during emergencies. This project would increase transfer capacity from 130 gallons per minute (GPM) to 250 GPM and improve water efficiency by replacing leaky, damaged valves and piping. The project would also include the following infrastructure upgrades: updating the current sub panel in Station 22 to accommodate additional power supply to the North building, upgrading the underground sub-feed from Station 22 to the North building (“tender bay”) to 100 amp, installing conduit from the North building sub panel to the exterior, trenching conduit to the pumping platform, and purchasing and installing a 220v 5 HP transfer pump.

Project Description

The project will provide the town of Guinda with a reliable emergency drinking water supply to efficiently serve residents, improve the ability of the Department to fight fires by increasing the speed at which firefighters can fill the truck’s tank, and conserve water by replacing old and damaged valves and piping. The District requests funding for the following tasks from the California Department of Water Resources:

Task 1. Purchase materials

The District will purchase a 220v 5 HP transfer pump to be installed at our pumping platform, as well as new parts to replace broken and damaged valves/hoses/fittings on our storage tanks.

Task 2. Improve infrastructure to increase transfer capacity

The District will hire a contractor to upgrade the current sub panel in Station 22 to accommodate additional power supply to the North building, upgrade the underground sub-feed from Station 22 to the North building (“tender bay”) to 100 amp, install conduit from the North building sub panel to the exterior, trench the conduit to the pumping platform, and install a 220v 5 HP transfer pump.

Task 3. Inspect and manage construction

The District will inspect the construction site and manage the construction contractor to ensure work is completed on schedule with assistance from Yolo County staff as needed. As a small district, the District would be interested in DWR’s assistance with technical support related to the project.

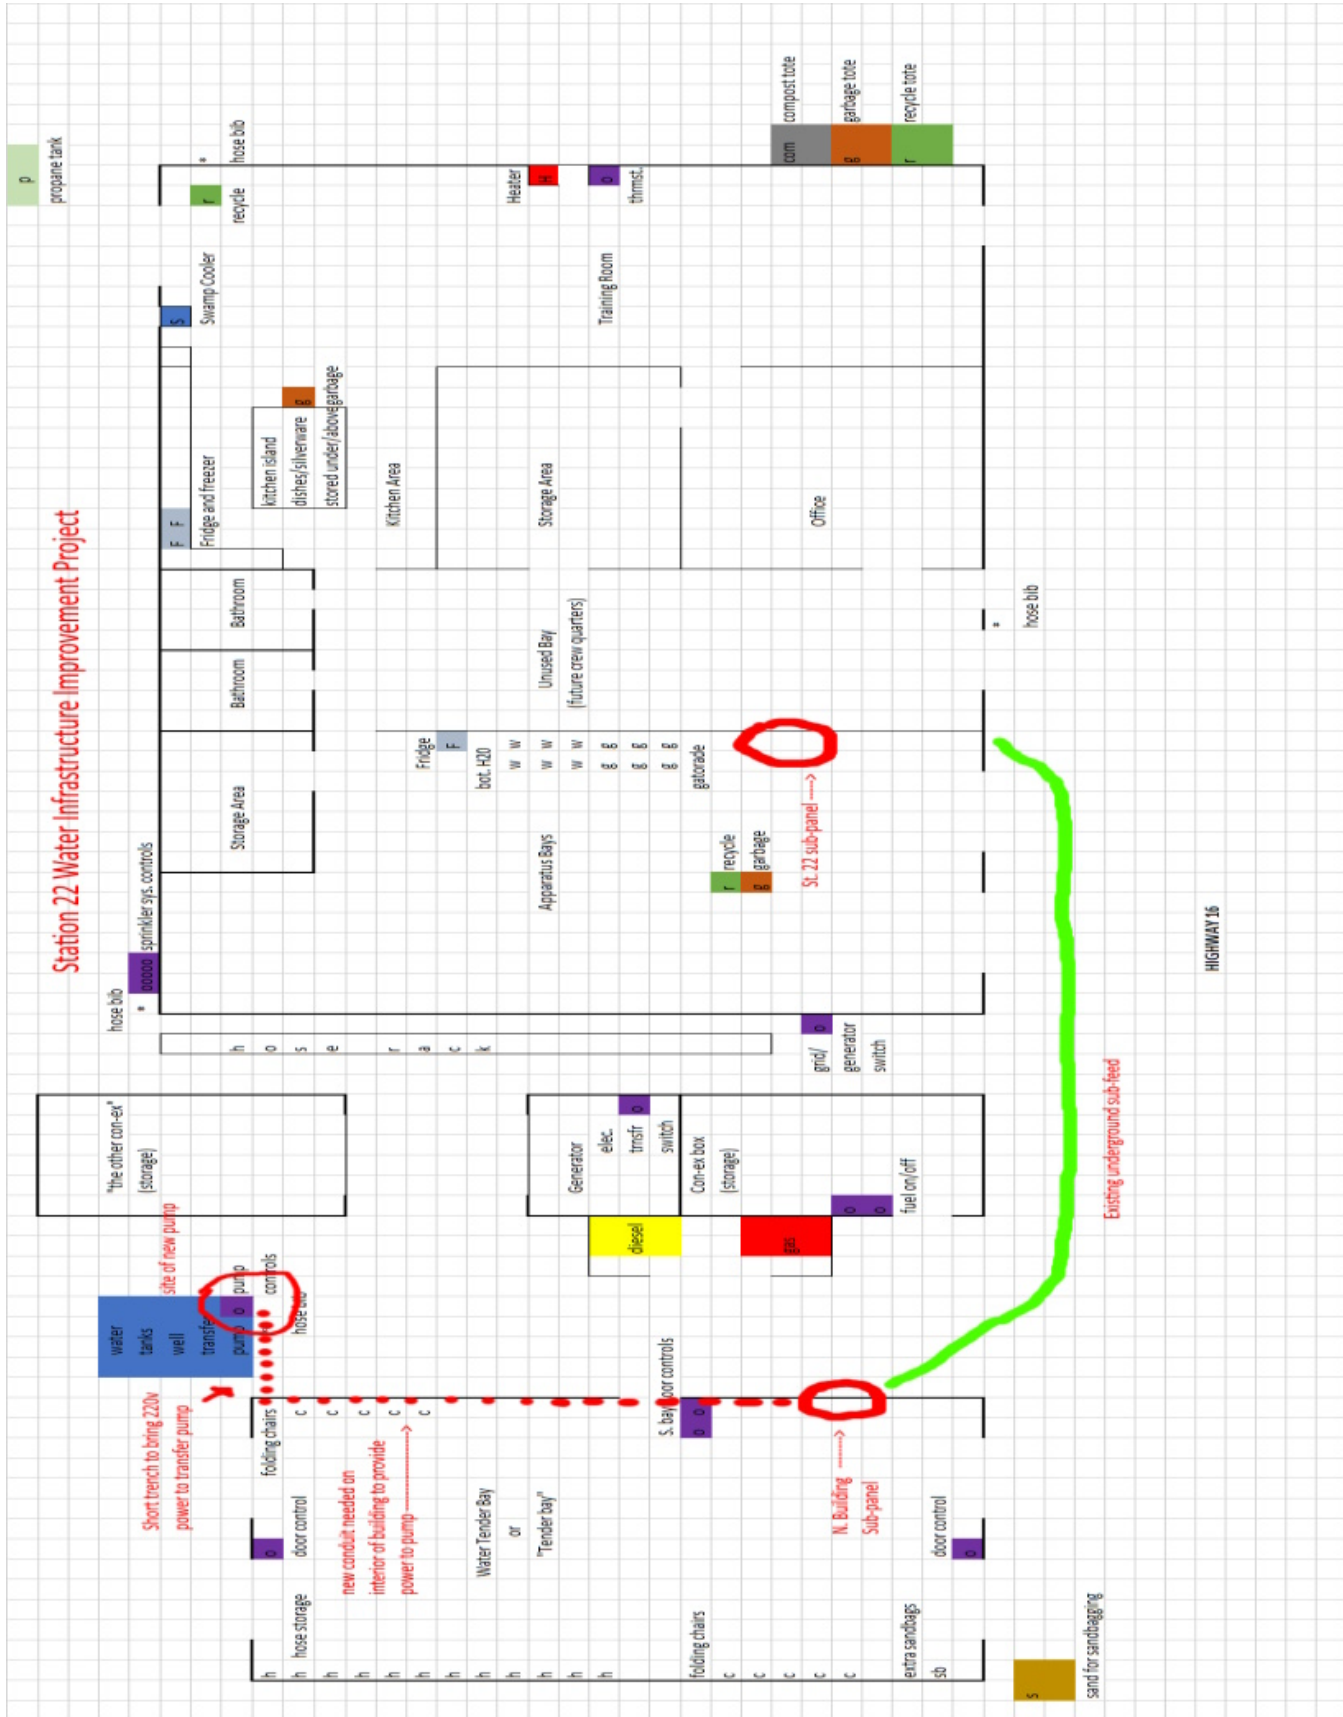

Task 4. Manage grant and complete grant reports

The District will manage the grant and submit reports and reimbursements with assistance from Yolo County staff as needed.

Project Location/Map

The project is located in the community of Guinda in Yolo County. Guinda is located in the Northwestern portion of Yolo County, off Highway 16, and 13 miles northwest from Esparto. See the below project site map for more detailed information.
